Knowing that Duck Life 4 is free, I just can't see how this game costs money because it doesn't really feel like it even deserves a new title. It's just new minigames, that's all.. Amazing game! So many new and original minigames, challenges, and the Alien duck race reminds me of Duck Life 4's final race. 10/10. Great Game One Of The Best Ducklife Games.. I want to get my duck some energy but i dont know what to press  
i click the food but nothing comes out  
and how am i supposed to train when i dont know what to do

Nice little time-passer for when you're bored. Mini games are challenging, yet fun.. games graphis is all messed up please fix this

. best game ive ever played!!!!. What this game lacks in programming, amusement, story, and the things that were fun in the first 3 games, it makes up for in grinding, boring minigames, graphics that don't fit with eachother, and a terrible leveling system. Just don't buy this game. It's is not worth it. Wait for the browser version.. It`s so fun i want to keep playing it!. Hi, bought this game and its not working at all. Also doesnt say why its not working... Can anyone help please? Thanks. its alright, but its fun
